

IMPORTANT INFORMATION ABOUT THIS ANTIBIOTIC

FINISH THE WHOLE BOTTLE.

**The last few pills kill
the toughest germs.**

Even if you feel better, take this antibiotic until it's all gone. If you stop early, you can harm yourself by creating stronger germs. These "resistant" germs are harder to kill and take longer to treat.

Don't save them. Don't share them.

Antibiotics are prescribed for specific conditions and may not be right for another illness or another person. Your health care provider should be the one to decide what kind to take and when to take it.

Talk with your provider or pharmacist

if you have side effects, if you miss a dose,
or if you have questions.

Endorsed by the Washington State Department of Health, Tacoma-Pierce County Health Department, and Washington State Medical Association

Dear Colleague,

The Washington State Department of Health (DOH) provides print-ready files (PDFs) of health education materials. To ensure that the original quality of the piece is maintained, please read and follow the instructions below and the specifications included for professional printing.

- **Use the latest version.** DOH materials are developed using the most current information available, are checked for clinical accuracy, and are field tested with the intended audience to ensure they are clear and readable. DOH programs make periodic revisions to educational materials, so please check this web site to be sure you have the latest version. DOH assumes no responsibility for the use of this material or for any errors or omissions.
- **Do not alter.** We are providing this artwork with the understanding that it will be printed without alterations and copies will be free to the public. Do not edit the text or use illustrations or photographs for other purposes without first contacting us. Please do not alter or remove the DOH logo, publication number or revision date. If you want to use a part of this publication for other purposes, contact the Office of Health Promotion first.
- **For quality reproduction:** Low resolution PDF files are intended for black and white or color desktop printers. They work best if you are making only one or two copies. High resolution PDF files are intended for reproducing large quantities and are set up for use by professional offset print shops. The high resolution files also include detailed printing specifications. Please match them as closely as possible and insist on the best possible quality for all reproductions.

If you have questions, contact:
Office of Health Promotion
P.O. Box 47833 Olympia, WA 98504-7833
(360) 236-3736

Sincerely,
Health Education Resource Exchange Web Team
